About Me

Third Year Computer Engineering Student.
I am self-motivated, smart-working and a fast learner. Keen to secure an opportunity in the field of Web Development. Committed to continuous learning and collaborative teamwork to improve my skills every second.

Technical Experience

Kenmark Itan Solutions - Junior NextJs Developer
Oct 2023 - Mar 2024

Key responsibilities:
- **Web Development**: Contributed to the development of responsive and visually appealing user interfaces using NextJs and CSS.
- **Performance Optimization**: Learnt techniques for optimizing frontend performance including code minification, image optimization, and lazy loading, to contribute to a faster and more efficient user experience.
- **Collaboration and Learning**: Collaborated effectively with the team, attended meetings and actively learnt from experienced developers to enhance my skills and contribute to the team's success.

Oggn Tech - Software Developer
Aug 2023 - Sept 2023

Key responsibilities:
- **Coding and Development**: Wrote clean, efficient code while following coding standards and best practices, contributing to software projects and features.
- **Documentation**: Created clear and comprehensive documentation for code and projects, aiding in code understanding and knowledge sharing.

CLUMOSS (Clusters of Multi Organizations for Support and Services) - Software Developer
July 2023 - Aug 2023

Key responsibilities:
- **Problem Solving**: Analyzed and solved technical challenges and issues that arise during development, demonstrating problem-solving skills and the ability to troubleshoot and resolve issues efficiently.
- **Documentation and Knowledge Sharing**: Documented my work, processes, and solutions effectively to ensure knowledge transfer within the team, and contribute to the creation of documentation that aids in the long-term maintainability of the software..

Projects

Amazeng Dashboard
Built a admin dashboard for Amazeng using various
MUI components.

Venya Travel Partner
Created a full-fledged website for booking of
flights/rooms/hotels etc.

React-Based Quiz Website
Created a dynamic timer-based quiz website using
Materialize CSS and Axios.

React-based Games Website
Added a home page and linked the five different
games to it.

Dynamic Quotes Website
Used NodeJs and linked the randomly generated
post to Twitter for posting it.
